

Your batch, in writing. Updated live.

Arzon Careers — Arzon Global Internship Programme

Why this exists

A placement officer sending 60 students carries asymmetric risk. One bad cohort and it is the principal's office. This one-pager removes that risk: the assessment methodology, the live batch outcome reporting, and the next step to engage your counsellor — all in writing.

ACRI — the assessment methodology

ACRI (Aptitude, Cognition, Role-fit, Industry) is a public 5-dimension scoring rubric, built from 13 traits and 40 questions. Trait-to-dimension weights are published code, not a marketing diagram.

Dimension	What it measures	Weight
Aptitude	Quantitative reasoning, data fluency	20%
Cognition	Pattern recognition, abstract reasoning	20%
Role-fit	Trait alignment with track-specific JD tasks	30%
Industry context	Regulatory awareness, domain literacy	20%
Workplace readiness	Communication, ownership, async hygiene	10%

Band ladder: Industry-ready ≥ 70 · Developing 45–69 · Foundation < 45 . Bands map to cohort-entry guidance, not pass/fail. Full methodology at arzoncareers.in/acri.

Batch outcome reporting

Every cohort produces a public, immutable ledger entry. Your students appear as de-identified rows tied to their cohort ID. Reports are refreshed at week 4 (mid-cohort), week 12 (capstone) and month 6 (placement outcomes).

Milestone	What you get	When
Cohort start	Roster confirmation + ACRI baseline (de-identified)	Day 0
Mid-cohort	Module completion, attendance, capstone brief	Week 4
Capstone	Grade band per student + de-identified work sample	Week 12
Placement	Public ledger row + employer destination (where consented)	Month 6

What we do NOT claim

- ACRI is not yet ASSAY-validated. Cronbach's α will be published once $N \geq 500$ completions.
- No guaranteed placement %. Refund ladder (B+ $\rightarrow$ 90 days $\rightarrow$ 6mo extension) is on the public ledger.
- No fabricated testimonials. The CohortVoices section shows verifiable surrogates only.

Next steps for your TPO office

1. Email partnerships@arzoncareers.in with college name + intended cohort size.
2. We send a 25-minute discovery call link + a draft MoU template (no fees to the college).
3. Roster is locked 14 days before cohort start. First public ledger entry on Day 0.
